

# Mark Huber — Curriculum Vitae

+1 909 607 0938 • mhuber@cmc.edu  
markhuberdatascience.org

Data Scientist specializing in computational probability, with a focus on Monte Carlo simulation for statistical applications, approximation algorithms, and numerical integration in high dimensions.

## Education

---

<b>Harvey Mudd College</b> <i>Bachelors of Science in Mathematics</i>	1994
<b>Cornell University</b> <i>Masters in Operations Research and Industrial Engineering</i>	1997
<b>Cornell University</b> <i>PhD in Operations Research and Industrial Engineering</i>	1999

## Experience

---

<b>Chemistry Animation Project</b> <i>Computer Animator</i>	<b>California Inst. of Technology</b> 1991, 1992
<b>ONR Graduate Fellowship</b> <i>Visiting Researcher</i>	<b>Naval Undersea Warfare Center</b> 1995
<b>Data Mining Group</b> <i>Visiting Researcher</i>	<b>IBM Almaden</b> 1996
<b>School of Operations Research and Industrial Engineering</b> <i>Teaching Assistant</i>	<b>Cornell University</b> 1999
<b>Department of Statistics</b> <i>NSF Postdoc in the Mathematical Sciences</i>	<b>Stanford University</b> 1999-2001
<b>Joint appointment in Mathematics and Statistical Science</b> <i>Assistant Professor</i>	<b>Duke University</b> 2001-2009
<b>Department of Mathematical Sciences</b> <i>Associate Professor</i>	<b>Claremont McKenna College</b> 2009-2012
<b>Department of Mathematical Sciences</b> <i>Fletcher Jones Foundation Associate Professor of Mathematics and Statistics and George R. Roberts Fellow</i>	<b>Claremont McKenna College</b> 2012-2018
<b>Department of Mathematical Sciences</b> <i>Chair</i>	<b>Claremont McKenna College</b> 2016-2019
<b>Computer Science Sequence</b> <i>Director</i>	<b>Claremont McKenna College</b> 2016-present
<b>Data Science Sequence</b> <i>Director</i>	<b>Claremont McKenna College</b> 2018-present
<b>Department of Mathematical Sciences</b> <i>Fletcher Jones Foundation Professor of Mathematics and Statistics and George R. Roberts Fellow</i>	<b>Claremont McKenna College</b> 2018-present
<b>Summer Undergraduate Research</b> <i>Director</i>	<b>Claremont McKenna College</b> 2019-2020

## Publications

---

### Book length works.....

## External funding and awards

---

### Postdoctoral Fellow in the Mathematical Sciences

*National Science Foundation* 1999–2001  
Perfect simulation techniques

### CAREER award

*National Science Foundation* 2005–2011  
Perfect sampling techniques for high-dimensional integration

### DMS grant

*National Science Foundation* 2014–2018  
Improved Monte Carlo methods for high dimensional sums and integrals

<b>EPSRC Symposium Workshop on Markov Chain-Monte Carlo</b> <i>Perfect simulation of Matérn type III processes</i>	<b>Warwick, UK</b> <i>Mar 2009</i>
<b>Computational Algebraic Statistics, Theories and Applications</b> <i>Sampling linear extensions for inference</i>	<b>Kyoto, Japan</b> <i>Dec 2008</i>
<b>Department of Applied Mathematics and Statistics Seminar</b> <i>Perfect simulation of Matérn type III point processes</i>	<b>The Johns Hopkins University</b> <i>Oct 2008</i>
<b>Department of Mathematics Probability Seminar</b> <i>Conditions for Parallel and Simulated Tempering to be fast or slow</i>	<b>Duke University, North Carolina</b> <i>Oct 2008</i>
<b>Stochastics Seminar, School of Mathematics</b> <i>Perfect simulation of Matérn type III point processes</i>	<b>Georgia Institute of Technology, USA</b> <i>Oct 2008</i>
<b>School of Operations Research and Industrial Engineering Colloquium</b> <i>Dealing with Matérn type III point processes</i>	<b>Cornell University</b> <i>Sep 2008</i>
<b>Advances in Analysis of Monte Carlo Methods workshop</b> <i>An Overview of Perfect Sampling Methods</i>	<b>Harvard University, Massachusetts</b> <i>Dec 2007</i>
<b>School of Statistics Seminar</b> <i>Perfect simulation of repulsive point processes</i>	<b>University of Minnesota</b> <i>Oct 2007</i>
<b>New Developments in MCMC (invited talk)</b> <i>Perfect simulation with the Randomness Recycler for arbitrary state spaces</i>	<b>Warwick, UK</b> <i>Aug 2006</i>
<b>Department of Mathematics</b> <i>Advanced Acceptance/Rejection Methods for Monte Carlo Algorithms</i>	<b>UC Davis</b> <i>Mar 2006</i>
<b>Joint Statistical Meetings (contributed talk)</b> <i>Time Dependent Update Functions for Perfect Sampling</i>	<b>Toronto, Canada</b> <i>Aug 2004</i>
<b>IMS meeting (invited talk)</b> <i>Time dependent update functions for perfect sampling</i>	<b>Singapore</b> <i>Mar 2004</i>
<b>Mathematics Colloquium</b> <i>Perfect Sampling: techniques and challenges</i>	<b>University of Ulm, Germany</b> <i>Dec 2003</i>
<b>Mathematisches Forschungsinstitut Oberwolfach (plenary lecture)</b> <i>Perfect sampling</i>	<b>Oberwolfach, Germany</b> <i>Dec 2003</i>
<b>Opening conference Stochastic Computation program SAMSI (contributed talk)</b> <i>Perfect sampling for some mixtures of distributions</i>	<b>Durham, NC</b> <i>Sep 2003</i>
<b>Electrical and Computer Engineering Seminar</b> <i>Bounding chain techniques for perfect sampling</i>	<b>NC State</b> <i>Feb 2003</i>
<b>Undergraduate workshop in the Stochastic Computation Program, SAMSI</b> <i>Stochastic Computation Techniques</i>	<b>Durham, NC</b> <i>Feb 2003</i>
<b>First Cape Cod workshop on Monte Carlo methods (invited talk)</b> <i>Introduction to the Randomness Recycler</i>	<b>Cape Cod, MA</b> <i>Sep 2002</i>
<b>Statistics Colloquium</b> <i>Using the Randomness Recycler</i>	<b>University of North Carolina at Chapel Hill</b> <i>Feb 2002</i>
<b>53rd Annual Meeting of the International Statistical Institute (invited talk)</b> <i>The Randomness Recycler approach to perfect simulation</i>	<b>Seoul, South Korea</b> <i>Aug 2001</i>
<b>Seminar</b> <i>A new approach to perfect sampling from nasty distributions</i>	<b>IBM Research-Almaden</b> <i>Sep 2000</i>
